

The Manufacturer Advantage

Manufacturers choose to work with CoramRx due to our ability to dispense product nationally, to provide adherence, compliance and persistence support, and to accurately report usage data and lot tracking. As a leading national specialty pharmacy provider, CoramRx's one-stop shop solution offers:

- 24/7 clinical assistance
- Copay assistance support
- Convenient drug delivery
- Pharmacists and nurses specialized in complex clinical care
- Dedicated patient care coordinators
- Patient education and treatment support
- Provider education and support

Comprehensive Disease State Solutions

Our goal is to help patients achieve therapeutic success. We support them through therapy-specific education, and dedicated patient care coordinators working in conjunction with our clinical teams to monitor for compliance, side effects and other key indicators.
