

The Patient Advantage

We understand that having a complex therapy doesn't mean that you have to put your life on hold. When managing your health, the people, products and services that support you can make a big difference.

CoramRx offers the expertise to help you manage your complex therapies and specialty medication. We provide comprehensive therapy-management programs, as well as injectable, infusible (IV) and oral medications. Our program also supports you with:

- 24/7 clinical assistance
- Knowledgeable pharmacists and nurses specialized in the support of your therapy
- Educational resources
- A personal care coordinator
- Insurance verification support
- Convenient drug delivery

Why Choose Coram?

- Convenient, free and fast home delivery
- Copay assistance
- Insurance verification
- Personal care coordinator
- 97% patient satisfaction

The Support You Need

Our goal is to help you achieve therapeutic success. We support you through therapy-specific education and a personal care coordinator who works with our clinical teams to monitor your treatment, help control side-effects and answer any questions you have regarding your therapy.

We offer therapy support programs in the following areas:

- Alpha-1 antitrypsin deficiency
- Anemia
- Crohn's disease
- Fertility
- Gaucher's disease
- Growth hormone
- Hemophilia
- Hepatitis C
- HIV/AIDS
- Immune deficiencies
- Multiple sclerosis
- Oncology
- Osteoarthritis (OA)
- Osteoporosis
- Psoriasis
- Respiratory syncytial virus
- Rheumatoid arthritis (RA)
- Transplant
