

The Payor Advantage

As a leading national specialty pharmacy provider, CoramRx offers comprehensive therapy-management programs, as well as injectable, infusible and oral pharmaceutical treatments. Our solution maximizes adherence and persistence while avoiding adverse effects and offers your patients:

- 24/7 clinical assistance
- Pharmacists and nurses specialized in complex clinical care
- Dedicated patient care coordinators
- Therapy-specific patient education materials
- Convenient drug delivery

Comprehensive Disease State Solutions

Our goal is to help your patients achieve therapeutic success in the most cost-efficient and clinically effective manner. Our programs are backed by extensive reporting and outcomes tracking. Each patient is followed by a dedicated patient care coordinator working in conjunction with our clinical teams to monitor for compliance, side effects and other key indicators.
